## MAP & DIRECTIONS

## SWINDON CHAMBERS

**By Road:** From M4 Exit at Junction 16. You will follow 3 sets of dual carriageways with roundabouts. Keep following the signs to Swindon Centre. The dual carriageways will finish and the road will narrow and take you under a railway bridge. After the railway bridge turn left at the next mini-roundabout. You will pass by some terraced houses and at the top of this road you will see a park ahead. Turn right and proceed through 2 sets of traffic lights with a pedestrian crossing between the two. At the second set of lights (with a Bridal shop on your right and a turreted building on your left) turn right into Farnsby St. You will now be on a one way system which leads into Commercial Road. Follow the road to the left and you will find a car park if you turn left at the TSB. When you have parked, walk back to the point in Commercial Road where you turned into the car park. Turn left here and walk for approx 100 yards until you see Temple Street on your left. Chambers is on the first floor of the red-brick modern building on your right.

**From the Railway Station:** Leave the station and walk directly ahead and cross over at the lights. Carry on walking ahead (past the Queens Tap public house), down Wellington St. Cross over at the lights, still walking ahead. This will take you to a pedestrianised area with offices on either side and a café in the middle. Carry on across and continue under the underpass. This will take you to another pedestrian shopping area (The Parade). Carry on across and bear left (Hairdressing salon on left and Etam on right). Continue ahead and turn left at the clock into Regent Street. Walking up Regent Street, you will pass WH Smith. Just past the Savoy pub cross over and turn right into Temple Street. Pump Court Chambers is the last red-brick building on the left hand side. We are on the first floor.
